

# About Us

Morvish Complex is active in packing a variety of aquatic and seafood products and exporting them to neighboring and European countries in Iran's largest fishing port, Deir Port, south of Bushehr province.

Deir Port has a very good location in the maritime trade and export of aquatic species because of its three famous berths and because of its proximity to the Arabian Gulf states. Therefore, Morvish Company has always been able to offer its customers new and high quality products in domestic and foreign markets due to being in this excellent location.

In addition, the company is a major supplier of products for processing companies nationwide. It is noteworthy that due to the high capacity of Bushehr province in catching a variety of aquatic species including fish, shrimp, crab, compound fish, etc., as well as the existence of numerous shrimp sites in the province, hundreds of these products are produced annually, After processing, it is exported to global markets, with Morvish Complex having strong management, experienced personnel and good support of fishermen as a strong supplier in global markets, especially in the Arabian Gulf countries.

# Missions and Plans

Morvish Complex has strong management, experienced personnel and good support of fishermen as a strong supplier in global markets, especially in the Arabian Gulf countries.

From the viewpoint of this collection regarding quality preservation and building trust, comfort and confidence in the consumer, providing high quality marines with international standards, along with the use of new technologies of sorting, grading and packaging are one of the most important priorities of Morvish Collection.

## **Cooperation with fishermen**

Major and direct distribution of marine aquatic throughout the country

Increasingly developing new marketing and sales models throughout the country as well as in the export sector

Boosting the export market of marine to various Asian countries, especially the countries of the Persian Gulf, Central Asia, Europe and America.

# **Our products**
